

**ATR on Feedback of Computer Science Department UG Course (B.Sc. Computer Science) for Academic Year 2016-17**

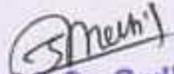

Question	V. Good	Good	Satisfactory	Unsatisfactory
<p><b>Syllabus Updated enough</b></p>	<p>Since 71.25% Student of UG Course (i.e. B. Sc. Computer Science) has given feedback response is Very Good. Hence syllabus updated enough is very good. Therefore there is no need to take an action.</p>	<p>22.50% of UG Students gives feedback is Good. Since Syllabus updated enough is good. Therefore no action is taken.</p>	<p>Only 2.50% UG students gives feedback response is Satisfactory. Hence no action is required.</p>	<p>Only 3.75% UG students gives feedback response Unsatisfactory. Hence no action is required.</p>
<p><b>The course Curriculum intellectually stimulated me</b></p>	<p>30.00% UG Students Gives Feedback response Very Good. According to these students the course curriculum is intellectually stimulated to them is very good. Therefore no action is taken.</p>	<p>22.50% of UG Students gives feedback is Good. Since the course curriculum intellectually stimulated to students is good. Therefore no action is taken.</p>	<p>Only 6.25% UG Students gives feedback response is Satisfactory. Hence no action is required.</p>	<p>Very few means only 2.50% UG students gives feedback response Unsatisfactory. Hence no action is required.</p>
<p><b>Applicability to real life situation</b></p>	<p>25.00% UG Students Gives Feedback response Very Good. According to these students the applicability of course curriculum to real life situation is very good. Therefore no action is taken.</p>	<p>46.25% of UG Students gives feedback is Good. Since the applicability of course curriculum to real life situation is good. Therefore no action is taken.</p>	<p>Since 25.00% UG Students gives feedback response is Satisfactory. So there is need to design to curriculum such that course curriculum applicability to real life situation is increased.</p>	<p>Very few means only 3.75% UG students gives feedback response Unsatisfactory. Hence no action is required.</p>
<p><b>Learning values in terms of knowledge, concept, skill etc.</b></p>	<p>25.00% UG Students Gives Feedback response Very Good. According to these students they must learn new values in terms of knowledge, concept, skill etc. is very good. Therefore no action is required.</p>	<p>37.50% of UG Students gives feedback response is Good. Since learning new knowledge, skill, concepts etc. is good. Therefore no action is taken.</p>	<p>Since 30.00% UG Students gives feedback response is Satisfactory. So there is need to design to curriculum such that students must learn new values such as knowledge,</p>	<p>Only 7.50% UG students gives feedback response Unsatisfactory. Hence no action is required.</p>

			concept, skill etc.	
<b>Learn new skill in the due course of your study</b>	31.25% UG Students Gives Feedback response Very Good. . Hence students must learnt new skill within course duration and is very good. Therefore there is no need to take any action.	37.50% of UG Students gives feedback response is Good. Means that students learning of new skills within course duration is good. Therefore no action is taken.	Since 25.00% UG Students gives feedback response is Satisfactory. So there is need to design the course curriculum such that students easily learn new skills.	Only 6.25% UG students gives feedback response Unsatisfactory. Hence no action is required.
<b>Syllabus created interest to pursue post graduation/Research</b>	23.75% UG Students Gives Feedback response Very Good. . Hence for these students purpose syllabus created is very good to pursue post graduation/research. Therefore there is no need to take any action.	40.00% of UG Students gives feedback response is Good. Since good syllabus is created such that students are interested to pursue post graduation/research. Hence no action is taken..	Since 28.75 % UG Students gives feedback response is Satisfactory. So there is need to create the syllabus as per students interest to do post graduation/research.	Only 7.50% UG students gives feedback response Unsatisfactory. Hence no action is required.
<b>Depth of the course content including project work</b>	35.00% UG Students Gives Feedback response Very Good. . Hence depth of course content and project work is very good. Therefore there is no need to take any action.	32.50% of UG Students gives feedback response is Good. Since depth of course content and project work is good. Hence no action is taken..	Since 25.00 % UG Students gives feedback response is Satisfactory. So there is need to increase the depth of course content and must include the project*work.	Only 7.50% UG students gives feedback response Unsatisfactory. Hence no action is required.
<b>Balance between theory ,practical and applications</b>	27.50% UG Students Gives Feedback response Very Good. . Hence balance between theory, practical and applications is very good and maintained. Therefore there is no need to take any action.	43.75% of UG Students gives feedback response is Good. Hence balance between theory, practical and applications is good and maintained. Therefore there is no need to take any action.	Since 25.00 % UG Students gives feedback response is Satisfactory. So there is some extra need to maintain balance between theory, practical and applications.	Only 3.75% UG students gives feedback response Unsatisfactory. Hence no action is required.
<b>Usefulness for developing social</b>	Since 31.25% UG Students Gives Feedback response	38.75% of UG Students gives feedback	Since 25.00 % UG Students gives feedback	Only 5.00% UG students gives feedback

<b>skill</b>	Very Good. . Hence course curriculum is very useful and very good for developing social skills. Therefore no action is taken.	response is Good. Hence course curriculum is useful and good for developing social skills. Therefore there is no need to take any action.	response is Satisfactory. So there is need to increase the usefulness of course curriculum for developing social skills among students.	response Unsatisfactory. Hence no action is required.
<b>Overall rating</b>	Maximum of UG Students that is 33.33 % and 40.00% UG Students gives feedback response is very good and good respectively and only 21.39% and 5.28% UG Students gives feedback response is satisfactory and Unsatisfactory respectively. Hence only few improvements is needed in some parameters. Hence there is no need to take any action.

**ATR on Feedback of Computer Science Department PG Course (M.Sc. Computer Science) for Academic Year 2016-17**

	<b>V. Good</b>	<b>Good</b>	<b>Satisfactory</b>	<b>Unsatisfactory</b>
<b>Question</b> <b>Syllabus Updated enough</b>	Since 57.14% Student of PG Course (i.e. B. Sc. Computer Science) has given feedback response is very good. Hence syllabus updated enough is very good. Therefore there is no need to take an action.	20.00% of PG Students gives feedback is Good. Since Syllabus updated enough is good. Therefore no action is taken.	Only 14.29% PG students gives feedback response is Satisfactory. Hence no action is required.	Only 8.57% PG students gives feedback response Unsatisfactory. Hence no action is required.
<b>The course Curriculum intellectually stimulated me</b>	28.57% PG Students Gives Feedback response very good. According to these students the course curriculum is intellectually stimulated to them is very good. Therefore no action is taken.	42.86% of PG Students gives feedback is Good. Since the course curriculum intellectually stimulated to students is good. Therefore no action is taken.	Only 17.14% PG Students gives feedback response is Satisfactory. Hence there is need to increase course curriculum intellectuality stimulated to students.	Only 11.43% PG students gives feedback response Unsatisfactory. Hence no action is required.
<b>Applicability to real life situation</b>	28.57% PG Students Gives Feedback response very good. According to these students the applicability of course curriculum to real life situation is very good. Therefore no action is taken.	42.86% of PG Students gives feedback is Good. Since the applicability of course curriculum to real life situation is good. Therefore no action is taken.	Since 20.00% PG Students gives feedback response is Satisfactory. So there is need to design to curriculum such that course curriculum applicability to real life situation is increased.	Very few means only 8.57% PG students gives feedback response Unsatisfactory. Hence no action is required.
<b>Learning values in terms of knowledge, concept, skill etc.</b>	22.86.00% PG Students Gives Feedback response is very good. According to these students they must learn new values in terms of knowledge, concept, skill etc. is very good. Therefore no action is required.	42.86% of PG Students gives feedback response is Good. Since learning new knowledge, skill, concepts etc. is good. Therefore no action is taken.	Since 20.00% PG Students gives feedback response is Satisfactory. So there is need to design to curriculum such that students must learn new values such as knowledge,	Only 14.29% PG students gives feedback response Unsatisfactory. Hence no action is required.

**Learnt new skill in the due course of your study**

			concept, skill etc.	
<b>Learnt new skill in the due course of your study</b>	40.00% PG Students Gives Feedback response is very good. . Hence students must learnt new skill within course duration and is very good. Therefore there is no need to take any action.	25.71 % of PG Students gives feedback response is Good. Means that students learning of new skills within course duration is good. Therefore no action is taken.	Since 28.57% PG Students gives feedback response is Satisfactory. So there is need to design the course curriculum such that students easily learn new skills.	Only 5.71% PG students gives feedback response Unsatisfactory. Hence no action is required.
<b>Syllabus created interest to pursue post graduation/Research</b>	31.43% PG Students Gives Feedback response is very good. Hence for these students purpose syllabus created is very good to pursue post graduation/research. Therefore there is no need to take any action.	42.86% of PG Students gives feedback response is Good. Since good syllabus is created such that students are interested to pursue post graduation/research. Hence no action is taken..	Since 22.86% PG Students gives feedback response is Satisfactory. So there is need to create the syllabus as per students interest to do post graduation/research.	Only few 2.86% PG students gives feedback response Unsatisfactory. Hence no action is required.
<b>Depth of the course content including project work</b>	37.14.00% PG Students Gives Feedback response is very good. Hence depth of course content and project work is very good. Therefore there is no need to take any action.	34.29% of PG Students gives feedback response is Good. Since depth of course content and project work is good. Hence no action is taken..	Since 25.71% PG Students gives feedback response is Satisfactory. So there is need to increase the depth of course content and must include the project work.	Only 2.86% PG students gives feedback response Unsatisfactory. Hence no action is required.
<b>Balance between theory ,practical and applications</b>	40.00% PG Students Gives Feedback response is very good. Hence balance between theory, practical and applications is very good and maintained. Therefore there is no need to take any action.	31.43% of PG Students gives feedback response is Good. Hence balance between theory, practical and applications is good and maintained. Therefore there is no need to take any action.	Since 22.86% PG Students gives feedback response is Satisfactory. So there is some extra need to maintain balance between theory, practical and applications.	Only 5.71% PG students gives feedback response Unsatisfactory. Hence no action is required.
<b>Usefulness for developing social</b>	Since 28.57% PG Students Gives Feedback response is	34.29% of PG Students gives feedback	Since 28.57% PG Students gives feedback	Only 8.57% PG students gives feedback

<b>skill</b>	very good. Hence course curriculum is very useful and very good for developing social skills. Therefore no action is taken.	response is Good. Hence course curriculum is useful and good for developing social skills. Therefore there is no need to take any action.	response is Satisfactory. So there is need to increase the usefulness of course curriculum for developing social skills among students.	response Unsatisfactory. Hence no action is required.
<b>Overall rating</b>	Hence maximum of PG students that is 34.92% PG Students gives feedback response is very good and 35.24% PG Students gives feedback response good and only 22.22% and 7.62% PG Students gives feedback response is satisfactory and unsatisfactory respectively. Hence only few improvements is needed in some parameters. Hence there is no need to take any action.
